Domtar AND THE ENVIRONMENT

personal care

*In 2018, Domtar Personal Care beneficially reused or recycled **86%** of total manufacturing byproducts, including general trash.*

Our production is engineered with highly efficient material cutting patterns to minimize waste. We also phased in in-house raw material reclamation. Instead of sending this waste to the landfill, we partnered with companies to use our scrap as their raw materials. It's better for our processes — and for the planet.
